## Summer Term 2008

Welcome back! Year 6 are entering their final term at Waterloo after being here (for some), nearly seven years. I hope they make the most of the opportunities planned for them and aim high in their SATs.

### SATs

**Monday 11 May to Friday 15**

Early nights and lots of concentration during this week please!

We will be revising at school and home in the build up to SATs. It is important that children complete all their homework to the best of their ability.

Attendance in these vital weeks is very important and will be closely monitored by the office staff.

### Science

Interdependence and Adaptation of plants and animals within various environments. Revision of topics in preparation for SATs. There will also be 4 fantastic science shows in the week before the tests.

### History

Britain since WW2. We will be looking at how Britain has changed over the decades with particular focus on the 1960s and 1970s.

### Geography

We will be looking at St. Lucia in a week long project in the

second half of the summer term.

### DT/ Enterprise

Will we be designing and making fairground rides. Also, during Enterprise Week we will be undertaking the mass production of a saleable item in order to sell them at the Summer Fair and make a profit!

### ICT

We will be making a presentation on "Our lives at Waterloo", including using power point. We will be using ICT across the curriculum for advertising, video editing and presentations.

### PE/ Games

Cricket, Athletics, Rounders and other invasion games. Fitness week will also take place in July.

### RE

We will be looking at sacred texts and applying them to modern day scenarios and life.

### Creative Projects

After SATs, we plan to undertake several projects which will encourage team work, artistic flair, music, ICT and drama.

These include-

Secondary transition projects, creating a passport to High School, Enterprise Week, Youth Games and St Lucia Week.

### Finally...

We hope that your child really applies themselves for the SATs, as they are an important part of life in Year 6. However, we also hope that after the SATs, the children enjoy all the exciting days and weeks that are planned for them to make their final weeks at Waterloo memorable and enjoyable. We expect children to behave appropriately; as we would like all children to experience everything that is planned for the Summer Term.

Thank you for your continuing support.

Mr P. May

Year 6 Leader
